

INTELLIGENT DESIGN

Some insist that evolution should take the credit for life on our planet. Some believe that the laws of natural selection made random choices that resulted in all of earth's creatures great and small. Many credit Mother Nature for what in fact belongs to Father God.

God made everything on purpose and for a purpose. Every ant and every atom is part of a great Intelligent Design. The Bible says, "Go to the ant, ... consider her ways and be wise." We suggest to you that every lady bug and every leaf in life has a place in God's plan. The Bible says that we "are fearfully and wonderfully made." Do not waste another day.

Discover the Author of Intelligent Design, the Architect of "You" and the universe. Give Him His rightful place and watch everything else fall in place. Then say with the Apostle Paul, "and we know that all things work together for good to those who love God, to them who are the called according to His purpose." Oh, Taste and see that the Lord is good.
